WARNER IRIS GARDENS

GRANDVIEW, WASHINGTON

GREETINGS FRIENDS!

While handing you this catalog Mrs. Warner and I want to express our sincere thanks for the numerous kind letters and cards of appreciation for the plants we have sent you. It is a pleasure to know they arrived in good condition and were satisfactory.

Much progress is being made by the skillful hybridizers in developing new and better irises and we try to keep step with this work by getting these top-notch plants for our friends as soon as possible. We

have added some very nice ones to our catalog this year and have more growing to offer next year of which there is not enough stock to offer this season. Naturally, this costs money; but there is a thrill which you get in no other way when you watch a fine new iris open which you never have seen before.

You are cordially invited to enjoy this thrill by visiting our gardens which are located two miles west of Grandview on the old cement paved road.

L. W. WARNER.

"For, lo, the winter is past, the rain is over and gone. The flowers appear on the earth; the time of the singing of birds is come, and the voice of the turtle is heard in our land." From Solomon's Songs 2:11-12.

To Our Customers

(Please read carefully before ordering)

Please use our order blank if you have one, it makes filing your order easier for us.

Please use money order, draft, check or registered letter to send money. No C.O.D. orders accepted.

Please include 25c extra if your order amounts to \$2.00 or less, to cover postage and packing.

In case a variety ordered is sold out or otherwise not available, we will not substitute unless you give us permission to but will return your money.

It is advisable to name some plants as second choice so we can fill your order if stock is short.

Shipments are made by prepaid mail, or express.

The months of July, August and September are the best for transplanting these iris so we begin ship-

ping July 1st. They take hold quickly then and make good growth before winter comes.

Orders are filled in rotation as received but we suggest that you order early while stock is complete, and we will ship the order at the proper time.

Our stock is state inspected and free from disease and we have no Japanese beetles nor iris borers.

None but good blooming size plants for the varieties ordered are shipped, and we guarantee them true to name, and to reach you in good condition.

We are interested in your success with our plants, so we include simple planting instructions in each shipment.

Washington customers please add 3% sales tax to your orders.

AUTUMN FLOWERING IRIS

Thanks to the hybridizers, there are a number of fine irises that bloom freely in the spring before the tall bearded sorts come into bloom, and also bloom again in the fall long after the others are gone.

These iris are hardy in the colder states as well as the south. They thrive in good soil and bright sunshine, and should be kept growing during the summer by cultivation and watering during dry weather. They multiply rapidly and should be taken up and divided about the third season, in July, to prevent overcrowding. Most of them are of medium height, and show the same marvelous range of colors as the tall bearded sorts. They are well worth a place in anyone's flower garden.

Autumn Haze (H. Sass, 1934)—32 in. This is one of the largest fall bloomers. The standards are a lavender-blue; the falls are violet-blue with lighter edges. Veining on white at the haft, and gold beard. 40c each.

Autumn Queen (H. P. Sass, 1926)—15 in. A lovely pure snow white iris. 40c each.

Black Magic (Wayman, 1935)—28 in. The color is a very deep blue-purple, with a rich velvety sheen. Blooms very freely. 35c each.

Dorcas Hutcheson (McDade, 1933)—18 in. Rich pansy-violet flowers with closed standards and down-falling falls. 30c each.

Earl Cross (Storer, 1939)—32 in. The closed standards of this bi-color are of light violet and the falls deep rose-violet edged lighter. 75c each.

Fall Beauty (Weed, 1941)—34 in. A blending of violet, bronze and brown. The slightly open standards are of bronze brown, washed violet; the falls are semi-flaring and of violet blue, edged bronze-brown. Petals are ruffled lightly and the beard is golden. The branching is good and it is an excellent fall blooming variety. We highly recommend Fall Beauty. \$2.00 each.

Frost Queen (H. P. Sass, 1933)—22 in. Frosty white closed standards. Falls are frosty white with gold veining. A free bloomer. 40c each.

Glowport (De Forest, 1939)—36 in. A glowing, wine red self with bronze beard. A red-red, tall and well branched. 40c each.

Golden Cataract (Met.-Dys., 1936)—20 in. A fine golden yellow iris that blooms freely in the fall. 50c each.

Golden Harvest (J. Sass, 1929)—18 in. Fine, large, deep yellow flowers with a green-gold cast. 35c each.

Jean Siret (Andre, 1926)—12 in. Unusually free flowering twice bloomer. The flowers are yellow. 35c each.

Kansas Ingleside (Hill, 1939)—New, a fine, warm red toned self. 50c each.

Lieut. Chavagnac (Andre, 1926)—15 in. The flowers of this twice bloomer are violet-red, and it has all the good qualities of Jean Siret. 30c each.

Martie Everest (Kirk-McDade, 1935)—36 in. The flowers are of uniform medium blue and have closed standards and hanging falls with golden beard. The flowers are large and stalks well branched. 35c each.

Neola (J. Sass, 1932)—10 in. Violet standards and deep brown falls. Large, well formed flowers. 30c each.

October Blaze (McDade, 1935)—24 in. Closed standards of dark bronze-red, falls dark red with gold beard. Blooms very late in fall if weather permits. 40c each.

A Typical Twice-Bloomer

October Opera (H. P. Sass, 1932)—20 in. A deep rich burgundy red twice bloomer. 40c each.

Peggy Babbington (Mindeleff, 1929)—28 in. A rich, deep clear uniform yellow. Smooth wax-like petals. 35c each.

Sangreal (J. Sass, 1935)—28 in. Fine deep yellow flowers with orange beard and one of the dependable bloomers. 30c each.

September Skies (H. P. Sass, 1933)—28 in. Deep violet purple. Large flowers on good stalks. One of the most dependable fall iris. 35c each.

Sound Money (J. Sass, 1935)—4 in. Try this dwarf iris in your border; it has bright golden yellow flowers. 30c each.

Super Autumn King—30 in. A fine purple bi-color. Very good. 35c each.

POGOCYCLUS HYBRIDS

The Pogocyclus hybrids are the result of the crossing of two distinct races of iris. Most of them are not as tall as the tall bearded iris and the foliage is not as rank growing. The flowers are unusually large for the foliage and they are very beautiful, and entirely different from the other irises. Many

are frilled, heavily veined and netted or striped with unusual and beautiful markings.

They seem to prefer a dry sunny place with a little limestone in the soil, but grow well in any good garden soil.

Doxa—18 in. Good sized olive green and lavender yellow blend flowers. An unusual color combination. 30c each.

Giran—24 in. Beautiful wine colored flowers with good veining. 30c each.

Ib-Pall—30 in. Ruffled reddish-lilac standards, dark violet falls and yellow beard. Large, and flowers freely. 35c each.

Lady Lilford—30 in. Intense, rich blackish-purple with a black beard. Very free blooming. 35c each.

Mons Steichen—15 in. Milky-white standards flushed lavender; creamy white falls flushed yellow with a wine-red spot radiating into veins of the same color. Very good. 25c each.

Nazarin—Purple violet standards. Falls are of darker violet. 35c each.

Zwanenburg—20 in. Very early, and a very free bloomer. Closed standards of cream-gold. Falls darker splashed with maroon. 30c each.
